Himachal Pradesh, India

SUMMARY

A computer science graduate student with hands on practice in LINUX,GIT,SHELLSCRIPTING, SQL. I built projects like e-commerce website and student login page using HTML, CSS. I also worked in GitHub . My strong decision makings skills and time management abilities motivate me to apply my knowledge in real world scenario.

SKILLS

LINUX SHELL SCRIPTING, GIT, GITHUB	PYBUILDER, MAVEN AWS SERVICES JENKINS	ORACLE SQL DOCKER KUBERNETES

PROJECTS

Deployed a Project using Docker and Apache Server

Deployed a web application using Docker and Apache HTTP Server for efficient containerized hosting.
Created and optimized Dockerfile for seamless deployment.
Configured Apache virtual hosts for handling multiple websites and improving performance.
Managed container networking, ensuring secure communication between services.

Automated CI/CD Pipeline for Web Application

Designed and implemented a CI/CD pipeline to automate the build, test, and deployment process.
Integrated Docker for containerized deployment, ensuring consistency across environments.
Configured Apache/Nginx server for hosting the deployed application.
Automated testing and deployment using YAML configurations, and webhooks.
Used Jenkins/GitHub to streamline software delivery.

EDUCATION

Bachelor of Computer Application
Rajiv Gandhi Memorial College JoginderNagar
CGPA - 7.45

Govt.Sen.Sec.School Barot
12th standard
